Step by Step

Step by Step HETRA helps participants maintain forward motion, paving their path with a foundation of strength to ensure success. At HETRA, adults and children with disabilities leave their limitations behind them. Once a week with their horse, their confidence, and their freedom, they are able to walk and trot forward seamlessly with poise and grace.

Brick by Brick

Brick by Brick, a foundation of stability is built. Together we can make the impossible possible. The Brick by Brick endeavor is a component of our Program Expansion Campaign. Through your purchase of a HETRA Campaign Brick, that foundation growth quickly paves a path to success.

Hand in Hand

Hand in Hand, with a \$3 million Program Expansion Campaign, we are surging toward the finish line. Participants and their families rely upon our ability to reach this financial goal. While the road we travel has been long, hand in hand, with you, the end is in sight.

We need your support today to help pave their path to success!

"I know of no other adaptive sport or recreation for a child who drives a wheelchair that completely levels the playing field like riding a horse. The horse's legs become Emily's and when she rides, she looks and feels like everyone else. If you walk into the barn and see her riding, it is impossible to tell that she isn't able to walk on her own...unless you look at the other end of the barn and see the wheelchair she left behind."

- HETRA Parent, Amy

Once a week with their horse, their confidence, and their freedom, they are able to walk and trot forward seamlessly with poise and grace.
