

Heartland Equine Therapeutic Riding Academy

2017 Annual Report

From the Director

“Difficult does not mean impossible. It simply means you have to work hard.” I believe this statement is

true for so many of the individuals that we serve here daily at HETRA. Over the years, I have watched people work very hard and overcome so many obstacles that are present in their lives. I have witnessed how their time here at HETRA and their interaction with the horses has made a difference. For some, this means that may be walking better, transferring more easily, or that they are simply able to sit on the floor and play with their peers. For others, it may mean the ability to stay on task and complete an activity from beginning to end, increased confidence, or increased leadership skills that they take forward into the community.

Here at HETRA we faced one of our biggest obstacles in 2017 – the unexpected and vicious arrival of the corona virus that adversely affected several members of our herd. While an extremely difficult summer, it was not impossible. It was not impossible for many reasons. To me, the most important reason was the people who make up the HETRA organization. I am proud and honored to be part of this amazing group. I am in awe of the hard work and dedication given by staff, volunteers, participants and our community. All of whom helped us work through and overcome this obstacle together. This team effort would not have been possible without so many people coming forward to help in so many ways.

I believe the individuals we serve have taught us something about hard work, dedication and never giving up. I believe their spirit was an aid that guided us through the event allowing us to emerge stronger as an organization. I believe this event was a defining moment in time for our organization and I am proud to say we are stronger because of it!

We have the opportunity to learn from one another every day and to help make our community better through those interactions.

“Difficult does not mean impossible. It simply means you have to work hard.” That is my take away from 2017 and it has been taught to me by the many individuals I have been blessed to work with throughout my time at HETRA.

Thank you to everyone that has shared your time, talents and treasures with HETRA. A special thank you to the amazing participants of HETRA that have taught me that difficult does not mean impossible – you inspire me each and every day.

I am looking forward to an exciting 2019!
